Practicing the music

"Addressing one another in psalms and hymns and spiritual songs, singing and making melody to the Lord with your heart." Eph. 5:19

It is remarkable to acknowledge the circumstances that yield change for us. Change can be birthed from the sweetest acclaim of success or the depths of despair. Our stool, staring wide eyed at the black and white keys. He change can be birthed over a slow evolution of time almost unnoticed by ourselves or birthed in a swirl so pungently strong we hardly recognize our very life. The song of life is a slow, steady change marked by one determined inner trust, one prayer at a time and one foot in front of the other. In essence, we are tweaking our song of life and sometimes distancing ourselves from the despair that marked us.

Life is hardly a song. Spiritually speaking, the Healer of wounds is in fact a wounded healer. Jesus' life is marked by numerous resurrections over adversity even before the resurrection we recognize as Easter. However, biblical texts urge us to hear the song of the psalmist shepherd, "He restores my soul." A way to see adversity and God as the Creator of an eternal soothing song is transparent in this experience from the life of Paderewski.

"Ignace Paderewski, the famous composer-pianist, was scheduled to perform in a great concert hall in America. It was an evening to remember---black tuxedoes and long about to give up, along comes the Master, who leans dresses, a high society extravaganza. Present in the audience that evening was a mother with her fidgety nine year old son. Weary of watching, he squirmed constantly in his seat. His mother was in hopes that her boy would be encouraged to practice the piano if he could just hear the immortal Paderewski at the keyboard. So, against his wishes he had come.

As she turned to speak to friends, her son could stay

seated no longer. He slipped away, strangely drawn to the ebony concert grand Steinway and its leather tufted placed his small, trembling fingers in the right location and began to play "chopsticks." The roar of crowd was hushed as hundreds of frowning faces turned in his direction. Irritated they began to shout: "Get that boy away from there." "Where's his mother?" And more.

Backstage, the master overheard the sounds out front and quickly put together in his mind what was happening. Hurriedly he grabbed his coat and rushed toward the stage. Without one word of announcement or hesitation he stooped over behind the boy, reached around both sides and began to improvise a counter melody to harmonize and enhance "chopsticks." As the two played together, Paderewski kept whispering in the boy's ear: "Keep going. Don't quit, son. Keep playing ... don't stop ... don't quit."

And so it is with us. We hammer away on whatever project or problem confronts us, as bold and brazen to us as "chopsticks" in a concert hall. And about the time we are over and whispers: "Now keep going, don't quit. Keep playing...don't stop...Don't quit."

So it is with us. It is significant to make a whole hearted melody to the Lord. A "life song," if you will, sometimes including our bewilderment at the next note, the time of a rest or what is the exact tempo. We are always in accompaniment with the Master who affirms what we sincerely play. Amen.

Prayer at WBLUMC: One of the ways our church helps to nourish and support the hungers of life is through prayer. CALL TO WORSHIP

"Arise, Shine; For Your Light has Come"

Hal Hopson

Choral Scholars: Ingrid Haugen, soprano; Tara Priolo, alto

+OPENING WORDS (responsively)

God our Father and Mother,

We come with songs aching to be sung, with words aching to be spoken,

With questions aching to be answered, with hearts aching for love.

We come with wounds aching to be healed, with emptiness aching to be filled,

With joy aching to overflow, with arms aching for embracing.

Let your love soak into the spirit and skin like soothing salve, Leaving a tingle where there was once an ache,

So that all may say we have met with God today, And everyone was touched and no one was turned away.

+OPENING HYMN

"Fairest Lord Jesus"

UNISON PRAYER

Tree of Life.

You shelter the birds who build their nests, and you feed them with sap, and berries, and seeds. You give nuts to the squirrel and a hiding place to the hedgehog. In you, all your creatures find a home. You shelter human pilgrims as well, offering shade in the heat and a place of rest to sustain us on our journey. Awaken us to the myriad of ways you care and protect us, even in our times of struggle and exhaustion. Amen.

MORNING PRAYER

THE LORD'S PRAYER

Our Father, who art in heaven, hallowed be thy name. Thy kingdom come, thy will be done on earth as it is in heaven. Give us this day our daily bread. And forgive us our trespasses, as we forgive those who trespass against us. And lead us not into temptation, but deliver us from evil. For thine is the kingdom and the power and the glory, forever. Amen.

SCRIPTURE Matthew 5:1-12 Reader: Dan Richter

When Jesus saw the crowds, he went up the mountain; and after he sat down, his disciples came to him. Then he began to speak, and taught them, saying:

RESPONSE TO THE WORD

Leader: For the word of God in Scripture,

for the word of God among us,

for the word of God within us.

All: Thanks be to God.

November's new double selection:

Hidden Figures by Margot Lee Shetterly. 2015. 368p. Before John Glenn orbited the earth, or Neil Armstrong walked on the moon, a group of dedicated female mathematicians known as "human computers" used pencils, slide rules and adding machines to calculate the numbers that would launch rockets and astronauts into space. Among these problem-solvers were a group of exceptionally talented African American women, some of the brightest minds of their generation.

Hidden Human Computers by Sue Bradford Edwards & Duchess Harris. 2016. 112p. "Hidden Human Computers goes beyond the three black women focused on in the book and movie Hidden Figures and offers in-depth biographical information about a range of women who worked at NASA at its inception, offering context for their own interest in science and mathematics beyond their function at NASA." — Alexis Pauline Gumbs [via African American Intellectual History Society]
